## MONTHLY A5 LOCAL LIFESTYLE MAGAZINES

PHIL HANDLEY ELECTRICAL & AUTOMATION 2000 - **CELEBRATING A YEAR AT THEIR NEW PREMISES AND 42 YEARS IN BUSINESS!**

**P**hil Handley Electrical and the Sister Company, Automation 2000 Security Systems Ltd, are celebrating their first year in their offices at Southwell Business Centre, Crew Lane. They are also celebrating 42 years successful trading in the electrical and security business based in the Southwell area.

They are proud of supplying their customers with the benefits of their knowledge, expertise and reliability. The business covers all domestic, commercial, industrial and agricultural applications, from a socket to a full re-wire. The services provided are fully guaranteed and their work is backed by the NICEIC, 17th Edition Wiring Regulations BS7671 and appropriate certification is supplied upon completion of any works.

Phil Handley, the Managing Director of the company, was born in Southwell and has built up the company to cover not just electrical installations, but the whole range of security applications, anything from security lighting to gates, CCTV and barriers. They provide custom designed security systems for their customer's personal requirements. The company thrives on interesting and different projects for its varied customer base. It is well suited to meet their demands, having both the electrical and mechanical expertise. Over the years they have done projects for many golfing, sporting and entertainment celebrities.

One of the most challenging projects for the security side of the business was the complete design, build and full installation of an 18 metre long, sliding security gate, complete with full automation for a Spalding based national Company. It is one of the longest automated, sliding security gates here in the UK.

Phil is assisted by his family in the running of the business, creating a familiar and friendly service

for all their customers. DIY security products are available for purchase from Crew Lane, ranging from £5.00 upwards. These can be anything from personal alarms and view minders right up to Mosquito anti social alarms. All of these products are Police Approved and Secure Marked. The public are invited to call in or contact them on 01636 812598 for any advice or assistance.
