

VBC PREMIER BLINDS - Adding the finishing touches to your home

VBC Premier Blinds is a family owned local company, with premises on Kirkgate in Newark and also in Lincoln and Grantham. With over 40 years of experience in the window blind industry and 24 staff, VBC offer excellent service, competitive prices and comprehensive showrooms where customers can view their extensive range of quality products, the majority manufactured in-house.

In addition to supplying to the domestic market, VBC Premier Blinds can manufacture and install commercial products for schools, colleges, local authorities and businesses. They fit a single kitchen blind or tackle an office block with equal professionalism. Their trade division has customers throughout the U.K. and is recognised for maintaining a high standard of workmanship and supplying an extensive range of quality products.

As house sales have slowed in the past year, home improvements such as the addition of conservatories, extensions and loft conversions have all become popular. VBC Premier Blinds can help with a wide choice of shading solutions for new and existing rooms. At one time curtains were virtually the only way of providing privacy, reducing the glare and adding colour to a room. Today there are many ways of dealing with window space and most of them will offer a wonderful choice of colours, patterns and materials.

VBC offer an extensive range of products. The ever popular Vertical and Venetian Blinds are available in a wide range of colours and fabrics. Wood Venetians bring classic style to any room and you can select from painted colours, stains and natural finishes. Pleated Blinds are sleek, simple and practical; offering style and versatility, they are available in an incredible variety of shapes and sizes. Roman Blinds combine the stylish lines of curtains with the simplicity of a blind. Roller Blinds are available in a variety of fabrics including translucent, plains, prints, dim-out, blackout and special performance fabrics that will compliment

and co-ordinate with any interior design scheme. These blinds are available with spring or sidewinder operation and you can also add finishing touches with decorative scallops, braids, pulls, poles and eyelets to personalise your choice. Panel Blinds are ideal for larger windows or patio doors and are available in natural looking and translucent fabrics. They slide to allow maximum light control and can transform the look of any room with their cultured and sophisticated appearance.

There is a range of Awnings and Canopies which can be fixed or retractable, with motorised, wind sensor, heating and lighting options available. VBC also specialise in blinds for both the roof and sides of conservatories, perfect for temperature control. For uPVC windows and doors a system called Perfect Fit is ideal; this integrates fully with the window or door and is available in Pleated, Roller and Venetian Blind options.

Call in at the Newark showroom between 9am and 5pm Monday to Friday, 9am and 4.30pm Saturdays or telephone 01636 700369 for further information or visit www.vbcpremierblinds.com
