### CHERYL'S PHOTOGRAPHY - Lifestyle Portrait and Wedding Photography

**E**stablished five years ago, Cheryl's Photography offers a relaxed and informal style of photography from a female photographer who creates pictures of treasured moments to last a lifetime; and at a realistic price.

Cheryl specialises in portraits, weddings and event photography. She has an innate ability to put her clients at ease, enabling them to enjoy the experience so that the photographs taken are natural and relaxed.

With Christmas approaching, portrait photography can make a wonderful present for relatives. Because her style of photography is laid back and relaxed, Cheryl does not base herself at a studio, preferring to take her clients out to be photographed, to Newark Castle, Millgate, to a riverside or to woodland. There will be no fixed backgrounds or forced smiles; Cheryl wants to see her clients enjoying themselves so that her camera lens can capture the essence of each one's character. Photographing children is one of her specialities, with two young boys of her own, she is perfectly in tune with children to bring out the best in them as they relax and play. With many of her photographs being taken outdoors, the children can take a break and expend some energy allowing parents to be photographed without them having the stress of worrying about the behaviour of their children, as can sometimes be the case in a more formal studio environment.

Creating beautiful baby bump photographs for pregnant women has become a popular request. Some clients prefer Cheryl to photograph them in their own homes, and as long as the light is good this can easily be arranged.

For weddings, Cheryl will be the main photographer taking shots of the special day but there will always be two of them working together to enable them to capture as much as possible and from as many different angles as they can. Both photographers will be unobtrusive, wanting their clients to feel comfortable throughout. Cheryl works in partnership with the couple in order to achieve photographs in a style they are happy with. She also photographs smaller parties held by couples

who have recently married abroad who want a memory of their celebration back home with friends and relatives. Whatever the wedding, Cheryl can tailor the photography to suit the couple's requirements.

Cheryl can also photograph smaller events – it can be wonderful to have a photographer attending a special birthday or anniversary party to photograph individuals and groups of people relaxing and enjoying themselves, in order to create a permanent record of a memorable event. She is also available for children's parties, capturing the spirit of the children in their happy and enthralled faces as they play.

Photographs can be viewed online using a personal password. Each order can be taken independently, meaning that wedding guests can view and purchase photographs directly. Photographs can be viewed and purchased in both black and white and colour; a range of high quality albums are available. Cheryl is also able to arrange for portrait photographs to be put onto canvasses. She has an excellent working relationship with her supplier, enabling her to offer beautiful top quality lacquered canvasses that will last a lifetime, made to measure and at surprisingly competitive prices.
